Mr. GARNET, the Chairman of the Republican National Committee, has been interviewed. There is but little doubt but the leaders of the hard money element are largely demoralized since the Maine election.

From a special telegram to the St. Louis Times of yesterday, we notice that a man named Walker shot and killed a man named Clinton last Saturday night at Marion. The man has not yet been captured.

Col. Timmins and Hon. G. F. Rothwell spoke yesterday at the Court House, and Hon. H. A. Newnam spoke at night at the southeast corner of the Square. The people are having ample opportunity of hearing all sides of the question.

A NEVADA paper has an account of an Indian who, in a recent flood, picked up a handful of money a drunken white man had thrown down, and next day hunted him up and returned it. You never can civilize an Indian.—Nashville American.

We don't want any man as a candidate for office who thinks more of himself than he does of the Republican party. In the selfish, unscrupulous schemers that bring political disaster and trouble.—Breckenridge Bulletin.

Then you don't want Grant in 1880.

The risk of depending for Republican gains in the next Congress upon independent or National movements in the South and West is made clearer every day. Hard work in the North will make the gains, and that is about the only way in which they can be made.—New York Sun.

The Chillicothe Crisis, heretofore a Greenback paper, has started the Democratic State and county ticket, Glasgow Journal.

Come now, Mr. Jour-

You

ought not to be so apid. The

Crusis has never been anyid g but

Democratic, true, we advocated

principles which were not in con-

flict with Wall Street and the

N. Y. York World, but just such

principles as were presented by the

Missouri Democracy in their last

July convention. We are right in

the line of the Western Democracy,

and expect to keep to the front all

the time.

The barbeque in Jackson town-

ship is reported as a grand success.

Every body and their families were

out. Between two and three thousand people were present to listen

to the speeches of C. H. Mansfield,

G. F. Rothwell, candidate for Congress;

M. L. Smith, candidate for Repre-

sentative; and H. A. Newman,

member of the State Democratic Central Committee. The speeches were well received, and as the people of that section of the county never do things by halves, there was plenty of roast meat and other provisions to feed the multitude. Everything went off pleasant and all enjoyed the occasion.

We have heard so many opinions about flat money and promises to pay, that we publish the law authorizing the issue of greenbacks, and hope the readers will save it for future reference. It may be found in section 3,888 and 3,889, last revised State statute:

A Washington paper says

that Smith sent his son with Smith

and his cattle to Lawrence,

Kan., and that he had to travel

from one town to fifteen miles

and came across in the

West Line and when near the

line three times in the back and

front he took his horse, turned

it around, drove the cattle to West Line,

and then to St. Louis, sold them, and came

to the West Line and took Clark's house and

then to the old, fine farm twenty to twenty-

five acres and came across in the
